**Contract**                **Annual Inspection & Maintenance**

---

### Project Scope

NZIA completes a wide range of services for the Laminex Group at two of their plants, one being Taupo & the other being in Kumeu Auckland. Please find below some of the services we carry out for them:

- Inspection & Certified welding repairs of Steel structures
- Sandblasting and painting of Stacks (high temp coating)
- Sandblasting and painting of general steel structures
- Sandblasting and applying specialised ceramic coating to the internal surface of a drier ducting (approx 1200mm) to increase efficiency.
- Height Safety Survey's of their sites
- Fall Arrest systems
- Routine maintenance of their plant at Height or in difficult access areas
- Installing of large "product breaking" wedges into the inside of 2 large steel silos

We operate anywhere in the South Pacific Basin

**0800 NZIA (0800 694 258) +64 27 4939 177 24 HOURS**

NZIA also has been directly involved in consultation with the Laminex Group in developing their confined space procedures and general Health & Safety Systems.
